Important note: 'HEALING with GEOMETRY AND LIGHT' Seminar is a thorough and professional integration of all the teachings of Marta Povo. It has been designed integrally to facilitate a comprehensive training to people coming from far away places, so they don't need to take several of her shorter monographic courses. Once or twice a year it takes place in Barcelona, at CSIS Jardín, but she also moves to other cities or countries abroad interested in it, previous agreement and organization.

The minimum number of students to organize this course, in other Spanish cities or abroad, is approximately 15 people, depending on the room or center where the seminar is celebrated. In any case, and in order to optimize teaching professionally, the maximum number of students Marta Povo allows is 18. Only in Barcelona this seminar can be celebrated with a minimum of 6 people.
